2 Introduction - What means ILIAS?

ILIAS is a powerful Open Source Learning Management System for developing and realising web-based e-learning.

The software was developed to reduce the costs of using new media in education and further training and to ensure the maximum level of customer influence in the implementation of the software.

ILIAS is published under the General Public Licence and free of charge.

3 Main Views within ILIAS

Personal Desktop

Every user in ILIAS has his or her own Personal Desktop.

It collects all resources, that are needed by the learning to fulfill the daily learning tasks.

The personal desktop features News, Personal Messages, Learning Resources, Personal Notes, Bookmarks, External Web Feeds and other information.

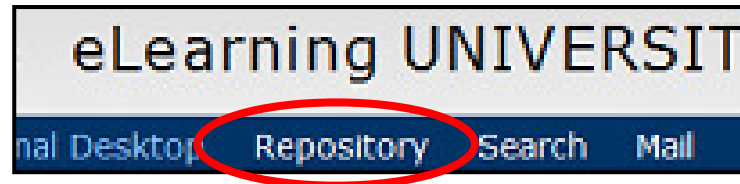

The learner can re-arrange these blocks of information according to his needs.
